

I benefit from XM Radio due to the fact that I LOVE NASCAR and with XM Radio I can listen to NASCAR 24/7. It is my choice to do so and I like having that option. I went without my XM radio for a week due to me not paying my bill and it drove me crazy. It is also great to have the weather and traffic channels to listen to because radio stations do not always give the traffic when you need it. There is no definite schedule, unless it is getting close to rush hour and by then I'm already sitting in traffic. XM Radio is also great when traveling. You do not have to worry about finding radio stations as you move through states. Even if I didn't have XM I would be listening to CDs instead of switching radio station ever 20-30 miles. Bottom line comes down to us having the option and if we want to pay for the subscription then so be it. DO NOT DO AWAY WITH SATELLITE RADIO. IF THAT IS THE CASE I GUESS I'LL BE BUYING A LOT OF NEW CDs, BECAUSE I WILL STOP LISTENING TO ANY RADIO STATION. PLEASE REJECT THE NAB'S PETITION 04-160
